

I am a listener of a radio station known as K-Love heard on 91.1 FM in my area. We have heard that LPFM expansion could allow LPFM station to take priority over current FM translator service. The Klove station provides a wonderful service to its listeners. The family focused programming is a welcome change from other radio programs aired in this area. I believe that if Klove were replaced many listeners would lose the encouraging music and programming that we enjoy on a daily basis. The programming offered by Klove serves the public interest in several ways. It provides positive and encouraging music that meets the spiritual and emotional needs of this community. I would request that any action taken by the FCC provide that existing radio stations take priority over any modifications to LPFM service. I do not understand the LPFM system but know undoubtedly that I do not want to see the beloved Klove radio station affected by any change. Thank you for your time and careful consideration.
